Objective

"A Standard Operating Procedure is a document which describes the regularly recurring operations relevant to the quality of the investigation".

Standard Operating Procedures are an essential part of a quality system. The objective of a SOP is to carry out the operations correctly and always in the same manner. A SOP should be available at the place where the work is done".

The Objective of this SOP is to provide guide on how to view **Agent status** in Pcvisor portal

Introduction

Meanwhile the user opens any of the module/tabs, he will discover the check-in icon which displays the agent status whether online/offline, user logged in/not logged in, suspended, idle status, etc.

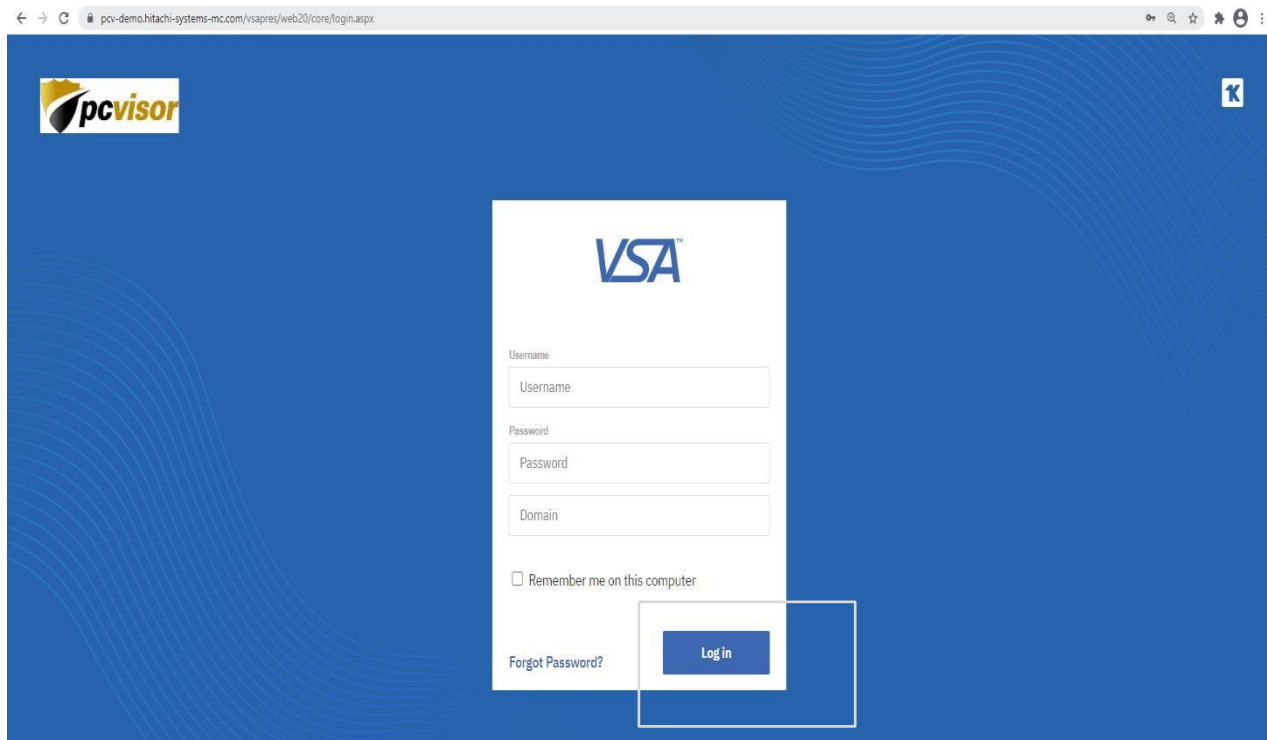

Color coding for Agent status

-
-  Online but waiting for first audit to complete
 -  Agent online
 -  Agent online and user currently logged in and active
 -  Agent online, not active but currently logged in
 -  The Agent is currently offline
 -  The Agent has never checked in
 -  Agent is online but remote control has been disabled
 -  Live Connect on Demand agent
 -  This account has been suspended

How to view agent status

Through quick view

Step 1: Enter credentials in the login page of Pcvisor portal. Click on the Log in button.

The screenshot shows a web browser window with the URL `pcv-demo.hitachi-systems-mc.com/vsapres/web20/core/login.aspx`. The page features the **pcvisor** logo in the top left and a **VSA** logo at the top of the login form. The login form contains the following elements:

- Username:** A text input field.
- Password:** A text input field.
- Domain:** A text input field.
- ☐ **Remember me on this computer**
- [Forgot Password?](#)
- Log in** button (highlighted with a red box)

Step 2: Enter the authentication code and click on the submit button.

← → ↻ poe-demo.hitachi-systems-mc.com/authenticate/ 🔍 ☆ ⚙

Thank you for using 2FA. In the TOTP Authenticator App, select your account and you should see a 6-digit code. Type the authentication code below.

Authentication Code

☐ Remember Me on this computer

Step 3: Once you are logged in, Hovering the cursor over a check-in icon displays an agent quick view window which shows the agent as well as user status.

The screenshot displays the Pcvisor Automated Managed Services web interface. On the left is a navigation sidebar with options like Agent, Agent Logs, Packages, Templates, and Remote Control. The main area shows a table of machines with columns for Machine Id, Current User, Last Reboot Time, Last Checkin Time, OS Version, and IP Address. A modal window titled 'nikhil6758.root.test.hitachi - User logged in and active' is open, showing details for the selected machine, including Current User (M6758), Operating System (Enterprise x64 Edition Build 19041), and various logs. A yellow box labeled '1' highlights the 'Agent' tab in the sidebar. Another yellow box labeled '2' highlights the 'Agent quick view window'.
